- Use the product only as instructed in this manual.
- Improper use may result in product malfunction or safety risks.
- The manufacturer is not responsible for damages caused by misuse, unauthorized modifications, or failure to follow the instructions provided.
- Product specifications and software features may be updated without prior notice.

Product Features

This product is designed to convert the original wired CarPlay system into wireless CarPlay, Android Auto, AirPlay, and Miracast.

Compatibility

■ Vehicle Requirements

Your vehicle must be equipped with original wired CarPlay

Verify CarPlay Compatibility

1. Use an original or certified cable to connect your iPhone to the vehicle's USB port.
2. Wait for the CarPlay icon or connection prompt to appear on the vehicle screen.
3. If CarPlay is successful, your vehicle is compatible with this adapter.

※ If you are unsure whether your vehicle supports wired CarPlay, don't hesitate to get in touch with your vehicle manufacturer or dealer.

■ Phone Requirements

※ Phone with iOS 10.0 or later

※ Android phone running Android 11 or later; the Miracast Android Phone must support wireless screen mirroring (Miracast)

■ Is this product's AirPlay and Miracast compatible with the operation of my car?

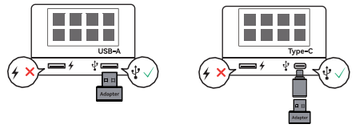

After checking whether the above two operations are feasible, insert the product into the car system to successfully enter the main interface of the product. Select the corresponding Airplay icon or Miracast icon to enter the respective function interface and follow the operation steps.

※ Airplay is recommended for iOS 12.2

※ If you need the Miracast function, it is recommended to choose other Android brands such as Samsung or LG

How to install correctly?

Plug the product into the vehicle's USB port that supports wired Apple CarPlay or Android Auto.

How to use wireless CarPlay/wireless Android Auto?

1. Plug the adapter into your vehicle

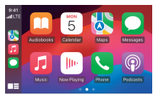

2. Click the CarPlay or Android Auto icon on the main interface, then turn on Wi-Fi and Bluetooth on your phone, and find the adapter Bluetooth name.

Click on Pair; Click on 'Allow'; Click on 'Use Carplay 'or 'Use Android Auto'

3. It will automatically recognize and connect to CarPlay/Android Auto.

Apple CarPlay

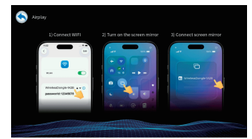

Android Auto

※ The connection steps for Android Auto are the same as CarPlay.

How to use AirPlay?

1. Click the AirPlay icon on the main interface
2. Connect your iPhone to the adapter's Wi-Fi network
Password: 88888888
3. Open wireless screen cast on your Phone.(usually available in the drop-down menu function list or search for it in the settings)
4. Select the adapter from the device list to connect
5. AirPlay will start automatically once the connection is established

How to use Miracast?

1. Click the Miracast icon on the main interface
2. Keep WiFi turned on, open the wireless screen cast on your Phone (usually available in the drop-down menu function list or search for it in the settings)
3. Select the adapter from the device list to connect
4. Miracast will start automatically once the connection is established
